REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Applicant's amendments to the claims have placed the application in condition for allowance.

Applicant has sufficiently defined and supported the terms used in the claims, as shown at pages 7-10 of the response of May 7, 2004. Further, as stated at pages 12-13 of the response, none of the references teaches or suggests producing

chewable coated cores in which the drying of the cores between sprayings is carried out by controlling the effective parameters of the drying air so as to cause a substantial residual moisture to remain in the drying coating layer at the start of a subsequent spraying phase.

The patentability of the instant claims lies in the fact that this procedure is purposefully repeated, where the method includes multiple steps of "starting a subsequent spraying phase by spraying said syrup onto the moisture containing layer of the previous spraying phase." In prior art methods, if the cores were not sufficiently dried such that no "substantial moisture" was present on the surface, mottling would occur, and the procedure was halted. Applicant's claims provide for a controlled procedure utilizing various drying air parameters to yield a core where a substantial moisture content remains present, yet is controlled to avoid mottling, to where "the relative humidity of the outlet flow of drying air has reached its basic level at which its gradient has flattened to a plateau", and then continuing the next spraying phase. This was not taught or suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Keith Hendricks whose telephone number is (571) 272-1401. The examiner can normally be reached on M-F (8:30am-6pm); First Friday off.
